

Ensuring Equity: Achieving Our Vision for Health Reform

With national health reform now a reality, CPEHN's spring convening will cut through the noise to focus on the importance of this historic reform for communities of color. Featuring presentations from Community Catalyst, a leading national advocacy organization, and California advocates on what we can expect in the coming months as implementation rolls out, the session will include:

- An overview of national health reform
- How reform will expand public programs and address health disparities
- What are the next steps for vital issues such as immigrant inclusion and reproductive justice
- Other advocates and community members strategize about successful implementation

Los Angeles – April 26, 2010

10:00 am to 2:30 pm

The California Endowment
